

Technician - Electrical, Bassano, AB

Our Company

Gentherm Global Power Technologies (GPT) is the world's leading manufacturer and distributor of Thermoelectric Generators (TEG's) and a leading supplier of Remote Power Systems. The Company's products are used extensively in the oil and gas industry as well as for telecommunications, security and surveillance and military applications. With sales into 50 countries, GPT has been providing reliable solutions for critical remote power applications around the world since 1975.

We are looking for energetic and dedicated individuals to join our GPT team. You will be a part of a positive, respectful environment where we take genuine pride in all that we do and are passionate about ensuring the success of our customers and our employees.

Job Purpose

Reporting to the Department Manager, the Electrical Technician is responsible for the testing and troubleshooting of all thermoelectric generators and other products as may be assigned.

Key Responsibilities and Duties

- Support the execution of build plans, to allow the delivery of complete, correct, tested systems ready to ship to customer, as per agreed schedule.
- Execute testing procedures, providing input for their continuous improvement.
- Provide feedback to Engineering on integrity of systems through efficient use of the Engineering Change request process and through participation in design reviews
- Develop a complete understanding of the Quality Management System and follow the requirements of its policies, procedures and work instructions.
- Practical on-site inspection duties.

Qualifications

- 2 Year Technologist Diploma in Electronics, Manufacturing or related discipline is required.
- Experience with inspection and testing of manufactured products
- Detailed electrical / electronics assembly experience
- Knowledge of Lean Manufacturing Principals
- Ability to read interpret both mechanical and electrical drawings
- Familiar with Bill of Materials (BOM's) work instructions
- Strong English Communication skills, written and verbal
- Analytical mind with strong problem solving capability
- Strong team player with a flexible and positive attitude

What We Offer

At Gentherm Global Power Technologies we care about the personal job satisfaction of our employees. We recognize the wide variety of factors that contribute to this satisfaction and encourage work life balance. Along with competitive compensation and benefits packages, we offer a respectful work environment, one which provides our employees with valuable learning experiences and career growth opportunities.

To Apply

Please submit your resume and cover letter and tell us why you are the best candidate for the job. We thank all applicants for their interest, however due to the volume of anticipated applications, we will be responding only to those candidates who are shortlisted.
